Our philosophy is "All things in proportion— nothing too much." Our ideals are those of a society measured by intelligence, efficiency, and morality. The sorority offers the ideals of culture and resourcefulness; it offers opportunities to attain these ideals; and, further, it offers possibilities of companionship, group action, and social diversion just to the degree desired by the respective members.

*Through these portals ye shall
receive the Golden Arcanum
of*

Delta Theta Chi

(Vice President/Membership Chairman: Remit this portion of the ASSOCIATE MEMBERSHIP CONTRACT to the National Office, with \$25.00 Contract Fee and prorated national dues. Please refer to *Procedure No. 1* of National Constitution and Bylaws. Remaining portion of this ASSOCIATE MEMBERSHIP CONTRACT is to be retained by the new member.)

Greetings

The Greek Letter Societies, which have so long been a significant part of our educational system, have a common aim in building character and in raising standards of living. The *Golden Arcanum of Delta Theta Chi*, in the full completion of its cycle, comprises the symbolism of the organization, its ceremonies of induction, and progression through successive steps to the complete unfolding of the objectives and ideals of the sorority.

In the idealism of Delta Theta Chi, there is a noble, constructive quality which makes itself felt from its very inception. In drawing together a group of people with similar purposes and ideals, it offers a basis for loyal friendship and interesting companionship.

These are the qualities that Delta Theta Chi offers, something that works from within to a significant result apparent to the members and the outside world, until each member of the sorority bears the stamp of culture, social poise and efficiency that it imparts.

The degree to which these benefits will function in your behalf will be measured by the devotion with which you apply the cardinal principles which will be placed in your hands. Delta Theta Chi promises no unearned rewards, but it does give opportunity, association, and training from which the advantages will naturally develop.
